

**Have your photos come to life on TV  
with animations, transition effects,  
voice-overs and music with  
"DVD Animated Picture Movie Show"**

**by**  
**Creations Videography**

**From \$25**

Amaze your family and friends when you show your digital photo images, photo prints, or slides completely animated on your TV from your DVD player or computer as a complete "DVD Animated Picture Movie Show" with music and a voice over.

The finished product includes a DVD title to the start of the movie, pan and/or zoom effects applied to each photo, to make the subjects feel like they may come alive and are going to move in the photo at any moment, and to highlight any part of the subject in the photo. Also included are transitions such as a gentle cross dissolve between photos, so one photo dissolves into another to keep the theme flowing. We can also apply special 3D transition effects when the theme changes to a different story line to break it up. With addition of your choice of music (or we can supply the music, depending on availability) and a pre-recorded voice over (client to supply the voice over recording on tape or CD from your subjects in the photos) which when included in the DVD production it becomes then a complete "DVD Animated Picture Movie Show".

Simply bring in your digital photo images on your memory cards, CD's or your photo prints or slides to us or post them to us by Australia Post, or give them to a participating shop agent and in about a week your original photos and images will be transferred into a "DVD Animated Picture Movie Show". The finished product along with your original memory cards, CD's, photo prints, slides can be either delivered back to you by Australia Post (client to pay for postage, packaging and C.O.D. fees by Australia Post) or you can simply pick them up from us. Or the finished job will be delivered back to the participating shop agent where you left them originally with your original photo prints, photo slides, digital images photo memory cards or CD's. See our price list and order form on our website for details. Also view a video sample on our website.
