***Creations Videography***

***Contact us to have your videotapes transferred to DVD***

We can transfer most videotape formats including- VHS, VHS-c, SVHS, SVHS-c, Video 8, Hi 8, Digital 8, mini DV, Betamax and we can even transfer camcorder mini DVD discs to the standard 12 cm DVD.

Simply bring your VHS videotapes, camcorder videotapes, Betamax videotapes and camcorder mini DVD's to us or post them to us by Australia Post, or give them to a participating shop agent and in about a week your original videotapes and camcorder mini DVD's recordings will be transferred to a DVD. The finished product with your original videotapes and camcorder mini DVD's can be either delivered back to you by Australia Post (client to pay for postage, packaging and C.O.D. fees by Australia Post) or you can simply pick them up from us. Or they will be delivered back to the participating shop agent where you left them originally with your original videotapes and camcorder mini DVD's.

Price starts from \$25 for the first 30 minutes of the original recording and then \$7 for each 30 minutes or part thereof, up to 2 hours per standard single layer disc. If you require more than 2 hours per disc we can transfer to DVD+DL (dual layer DVD) of up to 3.5 hours of high quality transfer of video (an extra fee of \$25 applies for dual layer discs). We can also supply you with a DVD library case with a colour printed library cover sleeve insert with title of your choice & photo. We can also supply a printed colour photo on the DVD disc surface with a title. We can also edit your original camcorder videotape/mini DVD recordings and create DVD menus with chapter points at an extra charge. See our price list and order form on our website for details.
